PERFORMANCE CITRUS INSIDER

CBS-12 Reports on New Program that Defeats Citrus Greening

A recent report by CBS-12 in Martin County details how some Florida citrus growers are recovering from citrus greening in their fields using a program developed by Performance Nutrition, a division of LidoChem, Inc. The program uses NutriSmart to remediate soils and patented foliar applications to replenish trees with nutrients and organic compounds in a protocol that research shows helps citrus trees recover from citrus greening.

Breakthrough Could Save Florida's Citrus

Story by Cory Pippin/CBS 12

For more information on a Citrus Greening Recovery Program customized to your grove, contact your Performance Nutrition representative today! info@PNFertilizers.com, 732-888-8000

Featured Product from Performance Nutrition

NutriSmart®'s Advantages

- Fixes nitrogen from the atmosphere for up to 5 months
- Provides consistent, uniform slow-release of nitrogen
- Can effectively replace 10 – 25% of soil-applied fertilizer
- Releases “locked up” P & K in soil
- Contains no chemical components
- A component of the Citrus Greening Recovery program
