

Z.ONE[®]

VitaSmart

Fortify While You Aerify

- Z.one VitaSmart patented soil amendment is designed to deliver organic nitrogen, phosphate and potassium along with an array of organic compounds critical for turf health and sustainability.
- Z.one VitaSmart contains NutriSmart, a revolutionary product that makes nutrients available to the plant without adding N, P or K. It fixes nitrogen from the air and unlocks phosphate and potassium from the soil. For an added boost to the soil, Z.one also contains natural zeolite infused with KaPre soil amendments.
- Z.one VitaSmart is ideal as a broadcast soil conditioner for turf, lawns and gardens, as an aerification amendment for golf greens and as part of a divot mix.

Z.one VitaSmart:

- **Slow release:** Pre-soaked with patented KaPre[®] RemeD8, KaPre[®] Embella and KaPre[®] ExAlt for sustained release of enzymes, humic substances, amino acids, organic extracts and sugars
- **Long lasting:** Designed and structured to safeguard beneficial microbes that fix nitrogen from the atmosphere and generate beneficial enzymes
- **Protects nutrients:** Helps retain nutrients in the soil and enhances nutrient absorption
- **Retains moisture:** Helps to keep the soil aerated and moist for a long period of time
- **Helps alleviate compaction:** Increases filtration and helps the aeration of root systems
- **Nutrient efficient:** Has a high CEC that enables a greater loading of plant nutrients such as nitrogen & micronutrients

Application Instructions:

New Greens Construction

- Incorporate 500 to 1,000 lb. per 1,000 cubic feet of root zone mix.

Tees, greens and other short cut grass

Aerification Applications:

- Aerify surface to be treated and remove cores.
- Broadcast 500 to 1,000 pounds Z.One[®] VitaSmart per acre (11.5 to 23 pounds per 1,000 ft²).
- Drag Z.One[®] VitaSmart into holes. Top dress as normal. Irrigate after application.
- Apply twice per year.

Fairways, Sports turf and other long cut turf

- Broadcast 500 to 1,000 pounds per acre (11.5 to 23 lb. per 1,000 ft²) 1 to 2 times per year. Irrigate thoroughly after application.
