## CITRUS MANAGEMENT PROGRAM

### 1<sup>st</sup> Month

PRODUCTS	RATE PER ACRE
Argosy <sup>®</sup> -RF	16 oz.
KaPre <sup>®</sup> ExAlt	16 oz.
Kelpene <sup>®</sup> GPX	10 oz.
Prudent <sup>®</sup> RX	1 gal.
NutriSmart <sup>®</sup> SB	250 lb.
KaPre <sup>®</sup> AG-WSP	8 oz.
Nutrol <sup>®</sup>	3 lb.

### 2<sup>nd</sup> Month

PRODUCTS	RATE PER ACRE
Argosy <sup>®</sup> -RF	16 oz.
KaPre <sup>®</sup> ExAlt	16 oz.
Kelpene <sup>®</sup> Ca	10 oz.

### 3<sup>rd</sup> Month

PRODUCTS	RATE PER ACRE
Argosy <sup>®</sup> -RF	16 oz.
KaPre <sup>®</sup> ExAlt	16 oz.
Kelpene <sup>®</sup> GPX	10 oz.
NutriSmart <sup>®</sup> SB	250 lb.

### 4<sup>th</sup> Month

PRODUCTS	RATE PER ACRE
Argosy <sup>®</sup> -RF	16 oz.
KaPre <sup>®</sup> ExAlt	16 oz.
Kelpene <sup>®</sup> Ca	10 oz.

### 5<sup>th</sup> Month

PRODUCTS	RATE PER ACRE
Argosy <sup>®</sup> -RF	16 oz.
KaPre <sup>®</sup> ExAlt	16 oz.
Kelpene <sup>®</sup> GPX	10 oz.
Prudent <sup>®</sup> RX	1 gal.
NutriSmart <sup>®</sup> SB	250 lb.
KaPre <sup>®</sup> AG-WSP	8 oz.
Nutrol <sup>®</sup>	3 lb.

### 6<sup>th</sup> Month

PRODUCTS	RATE PER ACRE
Argosy <sup>®</sup> -RF	16 oz.
KaPre <sup>®</sup> ExAlt	16 oz.
Kelpene <sup>®</sup> Ca	10 oz.
Krystal Klear <sup>®</sup> Fe	32 oz.
Krystal Klear <sup>®</sup> Agra Mix 3	32 oz.
LidoQuest <sup>®</sup> Citrus Special	8.3 lb.

### 7<sup>th</sup> Month

PRODUCTS	RATE PER ACRE
Argosy <sup>®</sup> -RF	16 oz.
KaPre <sup>®</sup> ExAlt	16 oz.
Kelpene <sup>®</sup> GPX	10 oz.
Krystal Klear <sup>®</sup> Agra Mix 3	32 oz.
NutriSmart <sup>®</sup> SB	250 lb.
KaPre <sup>®</sup> AG-WSP	8 oz.
LidoQuest <sup>®</sup> Citrus Special	8.3 lb.

### 8<sup>th</sup> Month

PRODUCTS	RATE PER ACRE
Argosy <sup>®</sup> -RF	16 oz.
KaPre <sup>®</sup> ExAlt	16 oz.
Kelpene <sup>®</sup> Ca	10 oz.
Krystal Klear <sup>®</sup> Agra Mix 3	32 oz.
LidoQuest <sup>®</sup> Citrus Special	8.3 lb.

### Notes

- NutriSmart-SB is soil applied.
- Foliar apply Nutrol, Krystal Klear Agra Mix 3, Krystal Klear Fe and LidoQuest Citrus Special.
- KaPre ExAlt is applied through micro-jets.
- After making the initial NutriSmart-WSP application, reduce soil-applied NPK rates by 10-20% for the remainder of the first season of treatment. Return to typical soil-applied fertility program after the first season of treatment.
- Do not apply glyphosate products without Argosy-RF, and, if possible, cease applications after June 1 until after harvest.
- Reduce herbicide rate to a lower labeled rate, not to exceed a 25% reduction of a typical application rate, and apply with Argosy<sup>®</sup>-RF rain-fast adjuvant at 1-2 quarts per 100 gallons of spray solution.

*This is a basic program. Additional foliar and/or granular applications may be required during the season.*
