

Suprex™ Phonix

PREMIUM FERTILIZER SOLUTION

Suprex™ PhoNix patented potassium fertilizer solution is intended for use as a foliar or soil applied supplement to a good fertility program.

Suprex PhoNix is formulated with IDS-40 bio-degradable chelating agent and organic compounds for improved plant nutrient uptake.

Suprex PhoNix helps build tolerance against physical and mechanical injury and environmental stresses.

Applications

Suprex PhoNix can be applied as a foliar or soil application to all crops.

Applications should be made prior to a “stressful event” or at planting (if applicable) and then every 10 to 14 days throughout the growing season, as needed.

Suprex PhoNix should be diluted at a ratio of 1 part Suprex PhoNix to 400 parts spray solution. See table for application rates for different volumes of spray solution.

Ounces of KaPre PhoNix per Volume of Spray/Tank Solution

Gallons of Solution per Acre	Ounces of KaPre PhoNix
2 - 4	0.75 – 1.5
5	1 - 2
10	2 - 4
25	6 - 8
50	16

BENEFITS OF SUPREX PHONIX

- Promotes plant growth by enhancing carbon fixation, particularly in plants that fix carbon via the C3 pathway
- Increases plant turgidity
- Promotes rapid growth and maturing
- Increases sugar content
- Reduces the watering requirement of the plant
- Enhances environmental tolerance of the plant
- Promotes growth in tissues of either juvenile or mature plants
