

# LIDOQUEST®

WATER SOLUBLE FERTILIZERS WITH PATENTED MICRONUTRIENTS

## Product Options

### LIDOQUEST® 20-20-20

20-20-20 with 0.05% Mg, 0.025% B, 0.055% Cu, 0.14% Fe, 0.06% Mn, 0.0005% Mo & 0.055% Zn

### LIDOQUEST® 28-8-18

28-8-18 with 0.05% Mg, 0.025% B, 0.055% Cu, 0.14% Fe, 0.07% Mn, 0.0005% Mo & 0.055% Zn

### LIDOQUEST® 25-0-25

25-0-25 with 0.025% B, 0.055% Cu, 0.14% Fe, 0.07% Mn, 0.0005% Mo & 0.055% Zn

### LIDOQUEST® 12-6-36

12-6-36 with 0.5% Mg, 0.025% B, 0.055% Cu, 0.5% Fe, 0.15% Mn, 0.0005% Mo & 0.05% Zn

### LIDOQUEST® 21-3-31

21-3-31 with 0.025% B, 0.055% Cu, 0.24% Fe, 0.12% Mn, 0.0005% Mo & 0.055% Zn

## About LidoQuest Water Soluble Fertilizers

LidoQuest® water soluble fertilizers provide instant, efficient feeding of NPK for golf course fairways, sports turf and commercial and residential lawns. LidoQuest products contain patented Krystal Klear® micronutrients to promote total plant health, color and vigor.

**Economical, compatible and easy to use!**

## Features & Benefits

- Quick and efficient correction of mineral deficiencies
- Easy to apply on golf fairways, sports turf and lawns
- Highly soluble and easy to mix
- Compatible with most fertilizers
- Formulated with patented Krystal Klear® micronutrients
- Utilizes dual chelation technology for optimal performance

## Application instructions

LidoQuest water soluble fertilizers are recommended as a supplement to a well-balanced fertilizer program only.

LidoQuest may be applied with all types of ground spraying equipment.

### LidoQuest 12-3-36, 28-8-18 and 21-3-31

Apply 10 - 25 pounds per 100 gallons of water per acre every 7 - 10 days

### LidoQuest 20-20-20 and 25-0-25

Apply 5 pounds per 100 gallons of water per acre every 7 - 10 days

*Do not exceed a concentration of 10 pounds of product per 10 gallons of water.*
