GENERAL INFORMATION

Patented Korban Zn Liquid Humate (0-0-4+2S with 2% chelated Zn) is formulated with PERFORMANCE Organic Acids™, a blend of a wide range of humic acids that are sourced from Leonardite.

Korban Zn Liquid Humate provides growers with a sustainable tool for improving nutrient uptake.

APPLICATION RATES AND TIMING

Korban Zn Liquid Humate can be used with fertilizer applications, including in-furrow starter fertilizers as well as fertilizers containing phosphate and micronutrients. It can be applied to all row crops, field crops, forage crops, feed crops, vegetable crops, trees, nut trees, vines, lawns, gardens, and ornamentals.

Soil Applications:

Korban Zn Liquid Humate may be applied pre-plant, as a starter, side dressed, fertigated, top dressed or as a banded application. It should be diluted with water to ensure uniform distribution at a rate of 2 quarts to 3 gallons per acre.

Fertigation Applications:

Korban Zn Liquid Humate may be applied at a rate of 2 quarts to 8 gallons per acre per irrigation. Run irrigation for a minimum of 2 hours after application to flush lines and ensure nutrient distribution.

Foliar Applications:

Korban Zn Liquid Humate may be applied at a rate of 2 quarts to 3 gallons per acre in enough water to provide adequate coverage. Multiple applications may be beneficial.

MIXING INSTRUCTIONS

Partially fill tank with water and begin agitation. Add Korban Zn slowly to the circulating mix. While agitating, inject the fertilizer product into the Korban Zn/water mixture.

BLENDING AND COMPATIBILITY

Do not mix with other chemicals without a compatibility test. An adequate test for compatibility involves mixing in a small container the proper proportions of the product with water and the other ingredients. Agitate and let stand for one hour. If a precipitate forms, then apply the products separately.

PRECAUTIONARY STATEMENTS:

Wash skin thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye and face protection.

IF SWALLOWED: Call a poison control center or doctor/physician if you feel unwell. Rinse mouth.

IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Take off contaminated clothing and wash it before reuse. Dispose of contents/container to an approved waste disposal plant in accordance with local/regional/national regulations.

CONDITIONS OF SALE:

Seller warrants this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions and use. No one other than an officer of the seller is authorized to make any warranty, guarantee, or direction concerning this product. Because time, place, rate of application and other conditions of use are beyond the sellers control, the sellers liability from handling, storage, and use of this product is limited to replacement of the product or a refund of the purchase price.
