SDS#: 1639

Revision Date: 04/30/25

SAFETY DATA SHEET

Section 1 - Identification of the substance/mixture and of the supplier

Trade Name: Suprex 28-8-18
Product Code: Suprex28-8-18

Chemical Name: 28-8-18 water soluble fertilizer with S, B, Mg, Mo and EDTA chelated Cu, Fe, Mn & Zn

Application/Uses: Fertilizing Compound

Restrictions: None

Distributor Information: PERFORMANCE NUTRITION - A Division of LidoChem LLC 20 Village Court, Hazlet, NJ 07730

Phone: (732) 888 8000 • Fax: (732) 264 2751 • email: info@lidochem.com

Emergency Phone Number: CHEMTREC - Day or Night - at 800 424 9300

Section 2 - Hazard Identification

Classification of the substance or mixture (GHS-US)

Reproductive toxicity 2 Serious eye damage/irritation 2 Skin corrosion/irritation 2A

Physical Hazards

None

Hazard Statements

H315: Causes skin irritation

H319: Causes serious eye irritation

H361: Suspected of damaging fertility or the unborn child

Precautionary Statements:

Precautionary Statements - Prevention, Response, Storage, Disposal

P202: Do not handle until all safety precautions have been read and understood.

P264: Wash skin thoroughly after handling.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P302 + P352: IF ON SKIN: Wash with plenty of soap and water.

P332 + P313: If skin irritation occurs: Get medical advice/attention.

P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337+P313: If eye irritation persists: Get medical advice/attention.

P308 + 313: If exposed or concerned: Get medical advice/attention.

P362: Take off contaminated clothing and wash it before reuse.

P405: Store locked up.

P501: Dispose of contents/container to an approved waste disposal plant in accordance with local/regional/national regulations.

GHS Label elements

Hazard Pictograms

Signal Word

Warning

HNOC - Hazards Not Otherwise Classified

None

Section 3 - Composition/Information on Ingredients

Chemical Identity: 28% N, 8% P₂O₅, 18% K₂O, 0.05% Mg, 0.02% B, 0.05% Cu, 0.10% Fe, 0.05% Mn, 0.0005% Mo, 0.05% Zn

CAS#:	Common Name/Synonyms:	% by Wt.
7757-79-1	Potassium nitrate	30-35%
39208-15-6	Ethylenediaminetetraacetic acid	0.35040%
	copper (II) disodium salt	0.35040%
14025-21-9	Ethylenediaminetetraacetic acid	0.1-0.15%

Section 4 - First Aid Measures

Description of first aid measures

General Advice:

Remove contaminated clothing and shoes. Seek medical advice immediately and show safety data sheet or product label to the doctor, if possible.

If Inhaled:

Remove person from contaminated area to fresh air. If not breathing, give artificial respiration. Seek medical attention if irritation or dizziness occurs.

In Case Of Skin Contact:

Remove contaminated clothing and wash before re-using. Flush skin with water and then wash with soap and water. Seek medical attention if irritation persists.

In Case Of Eye Contact:

Flush eyes with clean water for at least 15 minutes. Lift eyelids to facilitate irrigation. If present, remove contact lenses after 5 minutes and continue rinsing. Seek medical attention immediately.

If Swallowed:

Seek medical attention or call a poison control center immediately. Do not induce vomiting unless instructed to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed:

The most important known symptoms and effects are described in section 2. Further symptoms are possible.

Indication of any immediate medical attention and special treatment needed:

No additional information available

Section 5 - Fire-fighting Measures

Extinguishing media:

Suitable extinguishing media: water spray, dry powder, carbon dioxide, foam.

Specific Hazards arising from the substance or mixture:

Sulfur oxides, carbon oxides, potassium oxides, sodium oxides, nitrogen oxides, copper oxides.

Advice for firefighters:

Fire fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face piece operated in positive pressure mode.

Further information:

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

Section 6 - Accidental release measures

Personal precautions, protective equipment and emergency

As outlined in section 8, wear appropriate respiratory protection. Avoid dust formation. Avoid breathing dust, fume, vapours, spray, mist or gas. Use personal protective clothing. Ensure adequate ventilation. Evacuate personnel to safe areas.

Environmental precautions:

Do not allow spilled product to enter water supplies.

Methods and materials for containment and cleaning up:

Pick up and arrange disposal without creating dust. Sweep up and shovel. Avoid breathing dust.

Section 7- Handling and Storage

Precautions for safe handling:

Do not eat, drink or smoke when using this product. Wash hands and other exposed areas thoroughly after handling. Provide adequate ventilation. Protect packages against physical damage. Reseal containers immediately after use. Immediately remove and dispose of any spilled material.

Conditions for safe storage, including any incompatibilities:

Keep container tightly closed in a dry and well ventilated area.

Section 8 - Exposure Control / Personal Protection

Control parameters:

Chemical Identity:	CAS #:		eshold Limit ues	OSH	A PEL	NIOSI	H REL
Chemical Identity.	Orto II.	TWA	STEL	TWA	STEL	TWA	STEL
Potassium nitrate	7757-79-1	NDA	NDA	NDA	NDA	NDA	NDA
Ethylenediaminetetraacetic acid	39208-15-6	NDA	NDA	NDA	NDA	1 mg/m ³	NDA
copper (II) disodium salt							
Ethylenediaminetetraacetic acid	14025-21-9	NDA	NDA	NDA	NDA	NDA	NDA

Appropriate engineering controls:

Provide sufficient ventilation to maintain airborne concentrations below the recommended exposure limits. Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of the workday.

Individual protection measures, such as personal protective

Eye protection:

Tightly fitting safety goggles or face shield if a splashing hazard exists. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH.

Skin protection:

Handle with chemical resistant protective gloves. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Wash and dry hands.

Section 8 - Exposure Control / Personal Protection (cont.)

Body protection:

Body protection must be chosen depending on activity and possible exposure, i.e. apron, chemical resistant footwear plus socks, long sleeved shirt, long pants, chemical protection suit.

Respiratory protection:

Provide sufficient ventilation to maintain airborne concentrations below the recommended exposure limits. Wear a NIOSH-certified (or equivalent) organic vapour/particulate respirator. Do not exceed the maximum use concentration for the respirator facepiece/cartridge combination. For emergency or non-routine, high exposure situations, use a NIOSH-certified fum³ll facepiece pressure demand self-contained breathing apparatus (SCBA) or a full facepiece pressure demand supplied-air respirator (SAR) with escape provisions. Observe OSHA regulations for respirator use (29 CFR 1910.134)

General safety and hygiene measures:

Eye wash fountains and safety showers must be easily accessible. Employees should wash their hands and face before eating, drinking or using tobacco products.

Section 9 - Physical and Chemical Properties

Appearance (physical state, color, etc): Blue Granular

Odor: None

Odor threshold: No data available.

pH: No data available.

Melting point: No data available.

Freezing point: No data available.

Initial boiling point: No data available.

Boiling range: No data available.

Flash point: No data available.

Evaporation rate: No data available.

Flammability (solid, gas): No data available.

Upper/lower flammability or explosive limits: No data available.

Vapor pressure: No data available.

Vapor density: No data available.

Relative density: No data available.

Solubility: Soluble

Partition coefficient: n-octanol/water: No data available.

Auto-ignition temperature: No data available.

Decomposition temperature: No data available.

Viscosity: No data available.

Specific gravity: No data available.

Bulk Density: No data available.

SUPREX20-8-18
SAFETY DATA SHEET

Section 10 - Stability and Reactivity	
Reactivity:	
No data available.	
Chemical stability:	
Product is stable at ambient temperature and pressure, under normal storage and handling conditions.	
Possibility of hazardous reactions:	
No data available.	
Conditions to avoid (i.e. static discharge, shock or vibration):	
Extreme heat. Contact with strong oxidizers and reducing agents.	
Incompatible materials:	
Strong oxidizing agents, strong acids, strong bases.	
Hazardous decomposition products:	
Combustion may produce irritating gases an vapours. Toxic metal oxides may also be produced.	
Section 11- Toxicological Information	
Likely routes of exposure:	
Inhalation, ingestion, skin and eye contact.	
Symptoms related to physical chemical and toxicological	
Symptoms related to physical, chemical and toxicological characteristics and delayed and immediate effects and chronic effects from short and long term exposure:	
enects from short and long term exposure.	
Acute Toxicity:	
No data available for the mixture. Acute oral - Boric acid: Estimated LD50 = 2,660 mg/kg	
Skin corrosion/irritation: Immediate contact may cause irritation. Repeated exposure may lead to itch, rash, dermatitis or other reaction.	
Cariana ana daga ara/ana imitatiana	
Serious eye damage/eye irritation: May cause serious eye irritation, including redness and inflammation.	
Description, an altin consistention.	
Respiratory or skin sensitization: No data available.	

For Chemical Emergencies Call CHEMTREC - Day or Night - at 800 424 9300.

Carcinogenicity: No data available.

No data available.

Page: 6 of 9

Section 11- Toxicological Information (cont.)

Germ cell mutagenicity:
No data available.
Reproductive toxicity:
·
No data is available for this mixture. Boric acid has been demonstrated to have an effect on male fertility and the development of ar unborn child.
Specific target organ toxicity - single or repeated exposure:
No data available.
No data available.
Aspiration hazard:
No data available.
Symptoms after inhalation:
No data available.
Symptoms after skin contact:
May cause skin irritation.
Symptoms after eye contact:
May cause serious eye irritation including redness and inflammation.
Symptoms after ingestion:
May cause intestinal irritation if ingested.
ection 12- Ecological Information
Ecotoxicity (aquatic and terrestrial, where available):
Ecotoxions (aquatic and terrestrial, where available).
Toxicity to fish (acute and chronic):
Toxicity to fish (acute and chronic): No data available for the mixture. Individual component data reported.
Toxicity to fish (acute and chronic):
Toxicity to fish (acute and chronic): No data available for the mixture. Individual component data reported. Potassium nitrate: LC50: 22.5 mg/l, exposure time: 96 h, species: Gambusia affinis (Mosquito fish), Static test: LC50: 1,378 mg/l,
Toxicity to fish (acute and chronic): No data available for the mixture. Individual component data reported. Potassium nitrate: LC50: 22.5 mg/l, exposure time: 96 h, species: Gambusia affinis (Mosquito fish), Static test: LC50: 1,378 mg/l,
Toxicity to fish (acute and chronic): No data available for the mixture. Individual component data reported. Potassium nitrate: LC50: 22.5 mg/l, exposure time: 96 h, species: Gambusia affinis (Mosquito fish), Static test: LC50: 1,378 mg/l,
Toxicity to fish (acute and chronic): No data available for the mixture. Individual component data reported. Potassium nitrate: LC50: 22.5 mg/l, exposure time: 96 h, species: Gambusia affinis (Mosquito fish), Static test: LC50: 1,378 mg/l,
Toxicity to fish (acute and chronic): No data available for the mixture. Individual component data reported. Potassium nitrate: LC50: 22.5 mg/l, exposure time: 96 h, species: <i>Gambusia affinis</i> (Mosquito fish), Static test: LC50: 1,378 mg/l, exposure time: 96 h, species: <i>Poecilia reticulata</i> (Guppy).
Toxicity to fish (acute and chronic): No data available for the mixture. Individual component data reported. Potassium nitrate: LC50: 22.5 mg/l, exposure time: 96 h, species: Gambusia affinis (Mosquito fish), Static test: LC50: 1,378 mg/l,
Toxicity to fish (acute and chronic): No data available for the mixture. Individual component data reported. Potassium nitrate: LC50: 22.5 mg/l, exposure time: 96 h, species: Gambusia affinis (Mosquito fish), Static test: LC50: 1,378 mg/l, exposure time: 96 h, species: Poecilia reticulata (Guppy). Toxicity to daphnia and other aquatic invertebrates (acute and chronic): No data available for the mixture. Individual component data reported.
Toxicity to fish (acute and chronic): No data available for the mixture. Individual component data reported. Potassium nitrate: LC50: 22.5 mg/l, exposure time: 96 h, species: Gambusia affinis (Mosquito fish), Static test: LC50: 1,378 mg/l, exposure time: 96 h, species: Poecilia reticulata (Guppy). Toxicity to daphnia and other aquatic invertebrates (acute and chronic):
Toxicity to fish (acute and chronic): No data available for the mixture. Individual component data reported. Potassium nitrate: LC50: 22.5 mg/l, exposure time: 96 h, species: Gambusia affinis (Mosquito fish), Static test: LC50: 1,378 mg/l, exposure time: 96 h, species: Poecilia reticulata (Guppy). Toxicity to daphnia and other aquatic invertebrates (acute and chronic): No data available for the mixture. Individual component data reported.

Section 12- Ecological Information (cont.)

Persistence and degradability: No data available.

Bioaccumulative potential:

No data available.

Mobility in the soil:

No data available.

Other adverse effects:

No data available on mixture; however, potassium nitrate is very toxic to aquatic life. An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Section 13 - Disposal Considerations

Waste treatment methods - product:

Dispose in accordance with all local, state and federal regulations. In unused condition, this product is not considered to be a RCRA defined hazardous waste by character/listings. It is the responsibility of the waste generator to evaluate whether this wastes are hazardous by characteristic/listing.

Waste treatment methods - container:

Containers should be cleaned of residual product before disposal. Empty containers should be disposed of in accordance with all applicable laws and regulations. Chemical additions, processing or otherwise altering this material may make the waste management information presented incomplete, inaccurate or otherwise inappropriate.

Section 14 - Transport Information - US DOT, IATA, IMO, ADR:

Proper Shipping Fertilizing Compound, NOI, Dry - Suprex 28-8-18

D. O. T. Hazard Class:

Not Regulated by D.O.T.

Section 15 - Regulatory Information

U.S. Federal - OSHA Status:

This product is hazardous under the criteria of the Federal OSHA Hazard Communication Standard 29 CFR 1910,1200.

TSCA Status:

Listed/Non-reportable

SARA Title III Section 302 - EXTREMELY HAZARDOUS

CHECTANICE

This product does NOT contain ingredients listed in Appendix A and B as Extremely Hazardous substances.

Page: 8 of 9

Section 15 - Regulatory Information (cont.)

SARA Title III Sections 311/312:

N/Ap

SARA Section 313 Toxic Chemicals:

This product contains the following toxic chemical subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right to Know Act:

CAS# Chemical Name:

This material does NOT contain any chemical components with known CAS numbers that exceed the threshold reporting

SARA Superfund Section 110:

This product does NOT contain ingredients listed as hazardous substances on the Priority List of CERCLA Hazardous substances.

CERCLA, 40 CFR 117, 302:

This product does NOT contain ingredients specified in the List of Extremely Hazardous Substances.

CERCLA listed substances are:

Other Federal Reporting Requirements:

CAA: This product does not contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air

CWA: No chemicals in product are listed a Hazardous Substances, Priority Pollutants or Toxic Pollutants under the CWA.

RCRA Not considered a hazardous waste.

State Reporting Requirements:

State Right to Know Laws:

CAS# State RTK Chemical Name

NJ, PA, MA Ethylenediaminetetraacetic acid

CALIFORNIA PROPOSITION 65:

To the best of our knowledge, this product does NOT contain any of the listed chemicals, which the state of California has found to cause cancer, birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

Michigan Critical Materials:

This product does NOT contain ingredients listed on the Michigan Critical Materials Register.

Global Lists/International Inventories:

Canada CEPA: All intentional ingredients are listed on DSL.

Canada WHMIS: Not controlled.

Section 16 - Other Information

Note Section 3: Any concentration shown as a range is to protect confidentiality or is due to batch variation.

8-20-18 - Reviewed, updated California Proposition 65 statement, this replaces all previous SDS's.

4/30 changed name, logo and removed IDS
