

TRADITIONAL MEETS INNOVATION

PRUDENT[®] TURFPLUS

(3-0-0) UREA PHOSPHITE + AMINO ACID FERTILIZER

ABOUT PRUDENT TURF PLUS

Built on trusted urea phosphite technology, Prudent Turf Plus elevates daily turf programs with the added power of Pennamin[®] amino acids, promoting quicker recovery and more vigorous growth. It delivers a readily absorbed phosphite (PO_3) source that drives strong root development, improves nutrient efficiency, and supports natural plant defense. The amino acids are readily available to the plant, aiding nutrient uptake and enhancing tolerance to environmental stress. Cost effective and compatible with most fertilizers and plant protection products, it seamlessly integrates into fertility programs across greens, tees, fairways, and sports turf.

Nutrients delivered per application (per 1,000 ft²)

N: 0.01 to 0.04 lb • PO_3 : 0.017 to 0.068 lb

Applications

Foliar Applications: Prudent Turf Plus may be applied with all types of ground spraying equipment. DO NOT exceed a maximum product rate of 4 ounces of product per gallon of water in the spray tank.

Turfgrass: Apply 1 to 4 ounces per 1,000 ft². Begin applications in the Spring and continue on a 7 to 14 day schedule throughout the growing season. For best results, spray when the turf is in an active growing stage, after irrigation or rainfall. Spray early mornings or later afternoons.

WHY PRUDENT TURF PLUS?

- Delivers quick foliar uptake and movement for a fast, visible response
- Builds strong roots and helps maintain color and density under stress
- Adds amino acids to support nutrient transport, efficiency, and recovery
- Outperforms potassium phosphite with faster uptake, no added potassium salt, and cleaner mixes
- Cost-effective for ongoing programs and mixes well with most fertilizers and plant protection products.

Guaranteed Analysis

Total Nitrogen (N).....3.0%
0.5% Ammoniacal Nitrogen
2.13% Urea Nitrogen
0.37% Other Water Soluble Nitrogen

Derived from aqua ammonia, amino acids, and urea phosphite
